DETAILED ACTION

Allowable Subject Matter

1. Claims 6 and 7 (renumbered 1-2) are allowed. The examiner's statement of reasons for allowance has been previously set forth in Paper Number 5, Paragraph 3. In particular, while it is known to include a fiber reinforced spacer between a given bead core and the adjacent carcass ply (provides a desired spacing between the reinforcing elements of the carcass and the reinforcing elements of the bead), the prior art references of record failed to suggest, disclose, or teach radially extending the fiber reinforced spacer along the main carcass portion a distance between 0.05 to 1.0 times the height of the bead core after it is wrapped at least once around the bead core. Ohara (US 6,273,162, of record) is the closest prior art (see Figure 3 in which the fiber reinforced spacer is wrapped at least once around the bead core). However, the terminal end of the fiber reinforced spacer is adjacent the bead core and does not extend radially along the main carcass portion as required by the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Justin R Fischer** whose telephone number is **(571) 272-1215**. The examiner can normally be reached on M-F (7:30-4:00).
